

## (Re)Emerging– (Re)Branding

And We couldn't be more pleased to merge with that smaller, fresh and innovative company AquaDart™. For years AquaDart™ has supplied local areas like Yours in Totnes and all around the rest of South Hams with bottled water of the most distinctive and pure taste. We here at FalmouthFlow™ know how much people like You love the sparkling oaky taste of your local river Dart. So We wouldn't want to change a thing about Your favourite flavours.

Therefore, We decided with the merging of our two companies, as with the two confluences of our respective water sources, to combine the best of our desalinization and aqua sanitation technology here at FalmouthFlow™, with the more organic, rough-hewn and imaginative approaches of AquaDart™, to blend a brand new taste for our new rebranded bottled water formally just FalmouthFlow™, and now relaunching as FalmouthFlow incorporating AquaDart™.

# Trust us...

...We haven't changed a drop. Only our brand name– and what's in a name..?

*That which we call Water,*

*By any other brand wouldn't taste as sweet!*

With the recent economic recession, We here at FalmouthFlow™ had a rethink about our companies future. We decided that You should still deserve the best quality of bottled water sourced in the South West; and if that should mean a merger with another, smaller but nonetheless fresh and innovative company in order for Us both to survive, then why not?

Together we're stronger.

## We want You!

Now, to ensure that our new future customers like Yourself still receive the best bottled water in the South West, and that not a drop is lost with the new merger We want to know Your comments on how we can keep delivering that same great taste to your local area.
